Sensu

Sensu collection takes its name from the well known Japanese fan: an iconic, light and handy accessory. Its silhouette, consisting of an embracing backrest set on a conical base, aesthetically evokes the Japanese fan, thus making it not only a simple yet comfortable lounge chair, but also light and versatile in use: a seat where you can relax and immerse yourself in another reality. Along with the version equipped with a single cushion, whose fabric and padding make the chair highly versatile and suitable both for indoor and outdoor environ-

ments, there is also the option to cover Sensu completely. In fact, thanks to the Easy Up solution, a complete padding that can be easily removed by means of an elastic fastening system, it is possible to transform Sensu into a fully upholstered chair that is perfect for both indoor and outdoor solutions. Sensu is made of eco plastic, to underline the great sensitivity that TOOU has had for years towards the environment and sustainability, making it an authentic witness of our concern for the planet.

Our Designer

Simone Viola

Established in 2011
Switzerland

Born in Mendrisio, Switzerland in 1985. After a rigorous training in industrial design in Milan and through his collaboration during various architectural and design studios, he began to gain experience in Switzerland and abroad. In 2011, he founded the Simone Viola Design Studio, focusing on industrial projects for furniture and accessories. His philosophy leans toward research on the materials and technical aspects related to the development of the project, conceptually guided by historical and artistic references. This approach produces the most natural connection to contemporary design, where the object is not the expression of a trend, but a long-lasting fusion of form and the intended use. Soft, natural elegant shapes and an elevated attention to details characterizes his work and a continuous optimization of the development phase allows the realization of high quality and generously accommodating products.
